

# Mini Flow Gutter : Slim-line Black or White

Plastic Gutter & Fittings. Suitable for : Garden Sheds-Small Cabins-Patio Roofs-Verandas-Containers.(Fitted Seals no glue required)

Almost all Garden Sheds –Cabins-Patio Roofs – Verandas are supplied with out any form of guttering whatsoever. This can lead to problems such as boggy wet areas around the shed perimeter and even rotting of lower shed timbers in time. Fitting a small gutter system removes this issue completely. Mini Flow Gutter connects into a 50mm downpipe. This new and popular Black or White addition to our range uses a unique 76mm Mini Flow Gutter Rainwater System. An attractive slimline look also allows water from the shed to be diverted into a storage tank .When the tank is full simply use to irrigate the Garden. A full range of gutter and downpipe fittings are available within this range, please select your components as required.
